About Me

Computer Science undergraduate passionate about software development, AI applications, and full-stack systems. Strong foundation in Data Structures, Object-Oriented Programming, and modern web technologies with hands-on project experience. Focused on building real-world products and preparing for Software Development Engineer roles.

Education

? BTech in Computer Science Engineering ? Chitkara University (2024 ? 2028)

? Senior Secondary (12th, Science) ? NTC School Rajpura (2022)

Technical Skills

? Programming: C, C++, Java, Python, JavaScript

? Web Development: HTML, CSS, React, Node.js, Full-Stack Development

? Core Computer Science: Data Structures, Object-Oriented Programming, AI Basics

? Tools & Practices: Git, GitHub, Agile Methodologies, Prompt Engineering, Postman

Projects

? React Responsive Portfolio ? React, JavaScript, HTML, CSS. Built a fully responsive personal portfolio website using modular components. Optimized layout and performance for multiple screen sizes.

? College Club Management System ? HTML, CSS, JavaScript. Developed a web platform to manage college clubs and activities. Designed structured UI for event tracking and usability.

? AI-Powered Applications Collection ? Python, AI APIs. Built AI chatbot, text-to-voice, and speech recognition features. Explored prompt engineering and AI integration into web apps.

? Frontend Engineering Mini Projects ? HTML, CSS, JavaScript. Implemented stopwatch, calculator, quiz app, and to-do app. Demonstrates strong DOM manipulation and UI logic.

Development Practice

? Multiple repositories demonstrating DSA, OOP, and frontend systems

? Continuous GitHub project building and version control usage

? Strong hands-on coding consistency

Career Focus

? Software Development Engineer roles

? Backend + Full-Stack Engineering

? AI-integrated applications
